My name is H. Lalmuanzuala, presently pursuing MCA 4th Semester in University of Hyderabad, Telangana. As an alumnus of HATIM, BCA(2015-18) batch, I have attended the hardware class which was introduced to our course as an add on course, I found it really helpful in my studies as we are taught how to repair some basic common problems that we frequently faced that are easy to repair which does not require much tools, we also learn how to assemble desktop parts so that we won't face trouble even if we want to built our own system, which is not included in our normal course. I am really grateful that Hardware add on course is introduced, and I hope that it will help all the students attending this add on course class to have the basic knowledge on Computer hardware.
