

MEMORANDUM OF UNDERSTANDING

*A Memorandum of Understanding (MOU) is made and executed
On this day The 29th of October, 2019.*

BY and BETWEEN
HIGHER AND TECHNICAL INSTITUTE, MIZORAM (HATIM), LUNGLEI
AND
REFIDIM INFOSYS, VENGLAI, LUNGLEI
FOR
HARDWARE COURSE FOR BCA STUDENTS OF HATIM

This is to state that, as HATIM felt the need of letting the First Semester BCA (Bachelor of Computer Applications) Students to know basic Hardware components of Computer Systems. We, Higher And Technical Institute, Mizoram (HATIM) and REFIDIM INFOSYS, Venglai Lunglei will work together with an agreement on the following points:

1. All hardware requirements will be borne by Higher and Technical Institute, Mizoram (HATIM).
2. Head, Department of Computer Sciences will be appointed as the Nodal Officer for the Program by Designation.
3. The program will be Two Hour Every day for One Month. The month will be chosen by the Nodal Officer.
4. The agreement will be terminated after 5 years of Operation (2019 – 2024) and provision can be made to continue the program according to the need felt by both the parties.

In witness whereof, the parties to this MOU through their duly authorized representatives have executed this MOU on the days and dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this MOU as set forth herein.

I am 2012_2015 BCA batch (HIGHER AND TECHNICAL INSTITUTE MIZORAM) now I am working as Personal Banker in HDFC BANK LTD. during my BCA days, hardware course had been conducted every saturday. It really helped the students when we are in the work field especially for me as I worked as desktop engineer for 2 years. I hope this course is still going on.

My name is H. Lalmuanzuala, presently pursuing MCA 4th Semester in University of Hyderabad, Telangana. As an alumnus of HATIM, BCA(2015-18) batch, I have attended the hardware class which was introduced to our course as an add on course, I found it really helpful in my studies as we are taught how to repair some basic common problems that we frequently faced that are easy to repair which does not require much tools, we also learn how to assemble desktop parts so that we won't face trouble even if we want to built our own system, which is not included in our normal course. I am really grateful that Hardware add on course is introduced, and I hope that it will help all the students attending this add on course class to have the basic knowledge on Computer hardware.

H.Lalmuanzuala
HATIM Alumnus,
Batch of 2015-18, Bachelor of Computer Application
