**DEPARTMENT OF EDUCATION**  
**VISITED LOROTO PLAY SCHOOL: LUNGLEI**

The 5th Semester of Department of Education, HATIM has visited **Loroto Play School** on the 13th of September as part of *"Early Childhood Care and Education"*.

The students observed the daily educational activities of pre-schoolers and the various teaching techniques implemented in Nursery, Junior KG and Senior KG depending on their cognitive level. The Supervisor of Pre-school Miss Nancy has elaborated on Activity- based learning provided in the school which was followed by an enlightening session of interaction. The students had acquired a lot of information related to ECCE through this first-hand experience.

It was a great opportunity for the Department implementing one of the goals of Education i.e., adopting learning through field visitation rather than mere bookish learning. Through this field visitation, the students have learned:

- 1) The importance of the three domains in learning i.e., Cognitive, affective, psychomotor domains.
- 2) The importance of activity based learning for young tender children

- 3) The importance of freedom for children.
- 4) Proper guidance needed in every steps of learning.
- 5) Communication is the key for speech development.
- 6) The various fun yet educative activities to be carried out for the all-round development of the children.
